The Metropolitan Council is the regional planning organization for the seven-county Twin Cities area. The Council operates the regional bus and rail system, collects and treats wastewater, coordinates regional water resources, plans and helps fund regional parks, and administers federal funds that provide housing opportunities for low- and moderate-income individuals and families. The 17-member Council board is appointed by and serves at the pleasure of the governor.

Introduction

The Regional Parks System was established in 1974 by the Minnesota Legislature to provide regional recreation open space for public use. With the assistance of the Metropolitan Parks and Open Space Commission, the Metropolitan Council supports the system in partnership with 10 regional parks implementing agencies: Anoka County, City of Bloomington, Carver County, Dakota County, Minneapolis Park and Recreation Board, Ramsey County, City of Saint Paul, Scott County, Three Rivers Park District, and Washington County.

Originally, about 31,000 acres of existing parks were designated as “regional recreation open space,” and these designated regional parks had about five million visits in 1975. Over the past 47 years, the Council has invested state and regional funds to help regional park agencies develop, expand, and acquire parks and trails for the growing metropolitan region. Annual visits have grown to over 64 million in 2021, and the system has grown to include:

- 56 regional parks and park reserves, totaling nearly 55,000 acres open for public use
- 55 Regional trails with over 415 miles
- 8 special recreation features

Funds for Operations and Maintenance

Minnesota Statutes 473.351, Subd. 2, requires the Metropolitan Council to “distribute grant money received from the commissioner of natural resources to fund the operation and maintenance expenditures of the implementing agencies for the operation and maintenance of regional park and open space systems.” Each year, the implementing agencies report to the Metropolitan Council their expenditures for the previous calendar year. The Metropolitan Council reviews the submittals and applies the formula found in Minnesota Statutes 473.351, Subd. 3, to determine the allocation:

1. 40% based on the use that each implementing agency’s regional recreation open space system has in proportion to the total use of the metropolitan regional recreation open space system; and
2. 40% based on the operation and maintenance expenditures made in the previous year by each implementing agency in proportion to the total operation and maintenance expenditures of all the implementing agencies; and
3. 20% based on the acreage that each implementing agency’s regional recreation open space system has in proportion to the total acreage of the metropolitan regional recreation open space system. The 80% natural resource management land acreage of the park reserves must be divided by four in calculating the distribution under this clause.

Minnesota Statutes 473.351, Subd.2, requires that the Metropolitan Council report annually to the Minnesota Legislature the amount distributed to each implementing agency and the Council’s estimate of the percentage of operation and maintenance expenditures paid for with operation and maintenance funds.

Allocation and History

The 2023 state fiscal year appropriation for regional parks operation and maintenance ([*Minnesota Session Laws 2021, 1st Special Session, Article 1, Section 5*](#)) totaled an estimated \$9,990,000. Of this, \$2,540,000 came from the General Fund, and \$7,450,000 from the Natural Resources Fund. The amount is estimated because the Natural Resources Fund derives from lottery proceeds, which may vary with lottery ticket sales. Operation and maintenance revenue from the General Fund is paid to the implementing agencies annually in August, and the Natural Resources Fund revenue is paid in 12 monthly installments.

Minnesota Statutes 473.351, Subd. 3, provides that:

Each implementing agency must receive no less than 40 percent of its actual operation and maintenance expenses to be incurred in the current calendar year budget as submitted to the parks and open space commission. If the available operation and maintenance money is less than the total amount determined by the formula including the preceding, the implementing agencies will share the available money in proportion to the amounts they would otherwise be entitled to under the formula.

The state fiscal year 2023 appropriation will reimburse 8.31% of the implementing agencies' total 2021 regional park operation and maintenance budget. The average since 1985 has been 9.06%.

Table 1, below, illustrates the regional parks operation and maintenance calculations and allocations. Table 2 illustrates the history of operation and maintenance appropriations as compared to actual costs for 1985-2020 and the appropriation compared to eligible costs incurred for expense year 2021.
